***Claim Rejections - 35 USC § 112***

Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 5, the limitation "said extension member" lacks antecedent basis because it was not clear whether it's same as "an elongated radial extension" as set forth on line 3.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Grampp U.S. Patent 2,184,097.

Grampp disclosed a seesaw comprising an elongated planar member (10); an axle assembly having an axle member (39), an elongated radial extension (25), and a pair of wheels (40, 41); the extension (25) extending radially between, and coupled to, the axle and the planar member as shown in Fig. 1; the wheels coupled to the axle member (see Fig. 2), one wheel disposed on each side of the planar member; a ratchet-and-pawl assembly comprising a tooth gear (31), and a pair of pawl members (22, 23) coupled to the planar member and structured to engage the tooth gear (see Fig. 3).

***Allowable Subject Matter***

Art Unit: 3712

Claims 2-13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

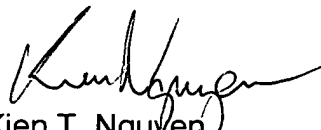

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The enclosed references are cited for interest.
